BACKLOG

Double album (Rel: 22.05.2015, recordJet)

Backlog – is the title of the new double album by singer/songwriter and multi-instrumentalist Bonifaz Prexl. It leads off with the song **Three Thousand Steps**, which could serve as the theme for the entire album, since **Backlog** is a journey into the past with many steps taken in the distance covered. It deals with hope and despair, friendship and love, suppression and desire. Song material from the past thirteen years is unified with a wide variety of musical styles providing the appropriate atmosphere. "Catchy Singer/Songwriter-Rock with an inclination towards playful rhythms", is how Bonifaz describes his basic concept, which he spreads into a broad mix of styles. **Backlog** becomes especially animated through recordings by the Bonifaz Live Band as well as various guest musicians. It's an album for dreaming and relaxing, rocking and dancing, which stimulates reflection and simultaneously creates a lively mood.

Bonifaz was able to prove his gift for songwriting back in 1998 at the 16th Bundesrock & Popfestival in Kassel, where at the age of 15 he won first prize for his song "Darkness Over Us". Since then he not only manages his own recording studio in Niederding, but is also involved in numerous musical projects. With **Backlog** he celebrates his return as a solo artist with a live band, which was newly formed in the summer of 2014.
